It also has connections (through the Short Route Railway & Transfer Company) with the New York Central System and the Chesapeake & Ohio Railway, thus affording switching service to and from all lines entering Louisville.

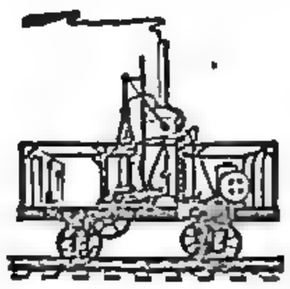
PROGRESS WE'RE PROUD OF

1827 ON OUR 1952

125th ANNIVERSARY



A century and a quarter ago, the charter for the Baltimore & Ohio, the first railroad in America, was granted. That was a milestone in America's progress, for it helped open the way for the constant expansion and increasing prosperity of our nation.

And during the years that followed, progress never slumbered on the Baltimore & Ohio—the pioneer maintained the pace. Schedules were improved, everything possible for the comfort of passengers and the efficiency of service was introduced.

Here are some of the relatively recent highlights that have made the B&O famous throughout the country for fine travel.

REMEMBER THESE B & O FEATURE TRAINS:

Chicago—Akron—Pittsburgh—Washington—New York
THE CAPITOL LIMITED
THE COLUMBIAN **THE SHENANDOAH**

St. Louis—Louisville—Cincinnati—Washington—New York
THE NATIONAL LIMITED **THE DIPLOMAT**

Detroit—Toledo—Washington—Baltimore
THE AMBASSADOR

Detroit—Toledo—Dayton—Cincinnati
THE CINCINNATIAN

New York—Philadelphia—Baltimore—Washington
THE ROYAL BLUE

BALTIMORE & OHIO RAILROAD

Route of the Diesel-Electric streamliners

AIR-CONDITIONING

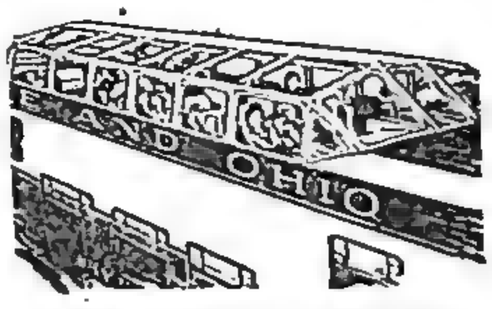
The first mechanical air-conditioned passenger car, the Martha Washington diner, and the first completely air-conditioned train, were placed in service by the B&O.

STEWARDESS SERVICE

The B&O was the first railroad in the East to introduce the friendly and helpful Stewardess, putting another personal and courteous touch into train travel.

DIESEL-ELECTRIC POWER

In 1935, the B&O placed in service the first Diesel-Electric locomotive ever to haul passengers on a long-distance run in the East.



THE STRATA-DOME

A travel-pleasure the B&O helped pioneer. The B&O is the only eastern railroad with Strata-Dome cars, and features them on three fine trains.
